WHEELCHAIR LIMO, INC.
A Subsidiary of Stretcher Limo, Inc.

**Serving Tampa Bay
Since 1985**

MEDI-CHAIR TRANSPORTATION

Medi-Chair Limo Transportation is designed for individuals requiring a higher level of care than Wheelchair Limo Transportation, but not in need of an ambulance. The Medi-Chair is an enlarged wheelchair that is able to be reclined to whatever position that best suits the person's needs. It is the most versatile type of medical transportation available, facilitating easy transfer to bed or examining table, and more comfortable than a stretcher.

Medi-Chairs have multiple positions for both head and legs. A CPR trained, safe driver and an Emergency Medical Technician (EMT) is on board to ensure maximum comfort and safety at all times.

Medical requirements are: Able to travel at a 30 degree angle and not likely to be in need of medical attention.

We provide transportation to and from:

- Hospitals • Residences • Dialysis
- Skilled Nursing Facilities • Airports
- Assisted Living Facilities • Oncology
- Doctor's Offices • Rehab Centers
- Long Distance & Pleasure Trips

CPR CERTIFICATION AND RECERTIFICATION:

Wheelchair Limo offers CPR classes to many groups and organizations.
